for Virginia, West Virginia, Pennsylvania, Maryland, and Delaware. In addition, you can find detailed maps for nearly any spot in the country on the internet (mapquest.com).

In most cases, the bird-finding guides have much more detailed information than I provide on the routes to take and what you are likely to find. The sources consulted for many of the sites in this list are A Birder's Guide to Virginia, edited by David W. Johnston (1997); Finding Birds in the National Capital Area by the late Claudia Wilds (1992); Birder's Guide to Pennsylvania by Paula Ford (1995); The Status and Distribution of New Jersey's Birds by Charles Leck (1984); Birds of the Blue Ridge Mountains by Marcus Simpson (1992); The Mountain and the Migration: A Guide to Hawk Mountain by James Brett (1991); A Guide to Bird Finding in New Jersey by William Boyle Jr. (1986), and The Birds of Cape May by David Sibley (1993).

Abbreviations used in the descriptions are as follows:

- CR County Road
- DE Delaware State Highway
- FR Forest Service Road
- hq headquarters
- I Interstate Highway
- jct junction
- LR Local Route (a designation for rural Pennsylvania highways)
- MD Maryland State Highway
- mi miles
- NJ New Jersey State Highway
- PA Pennsylvania State Highway
- RD Rural Delivery (a designation for rural Delaware roads)
- SR State Route

Delaware

From the town of Williamsville just north of the Delaware-Maryland state line, proceed northeast on DE 54 a little over a mile to CR 381. Turn left on CR 381 and go about 2 mi to jct with CR 384. Bear right on CR 384 and “follow signs for Camp Barnes until they are joined by the ones for Assawoman State Wildlife Area” (Wilds 1992, 185). Follow signs to the entrance. Habitats include bottomlands, marshes, swamps, and bay.

From the city of Smyrna, go north on US 13 about 5.7 mi to RD 471 (Blackbird Forest Road). Turn left (southwest) on RD 471 and proceed 1.9 mi. One of five sections of Blackbird State Forest is on your right (north) along this road, which parallels Blackbird Creek. This site is good for upland forest and field birds of the Coastal Plain.

From the city of Smyrna, go west from jct of US 13 and DE 6. Go west on DE 6/DE 300 about 1.1 mi to where DE 6 branches off to the right. Turn right (west) on DE 6 for about 7.2 mi. Turn right (north) on Holletts Corner Rd (RD 126). The wildlife area is on the left (west) side of the road. Other sections of the area are located north and south of this site. This site is good for upland forest and field birds of the Coastal Plain.

From jct of US 13 and DE 300/DE 6 in the city of Smyrna, go south on US 13 about 0.9 mi to jct with RD 12 (Smyrna-Leipsic Rd). Turn left (east)
