

**Submission Guidelines for Manuscripts in English--MLN French issue**

Please submit your article as a Microsoft Word document, saved as .doc rather than as .docx.

Your manuscript should not exceed 7,000 words, including notes.

Along with your article, please supply an abstract of 100 or fewer words for the online version of the journal, and a two- or three-sentence note on your institutional affiliation and recent publications for the Contributors section.

**Formatting**

Use 10-point Times New Roman.

Format notes as endnotes rather than as footnotes, and number with Arabic numerals (1,2,3..).

Double-space everything, including notes, the table of contents, block quotations, and lists of works cited.

Use the tabulation key rather than the space bar to indent text.

Format the document as US letter size, and set all of the margins (right, left, top and bottom) at 1". Set text justified on the left and ragged right, rather than justified on both sides.

Indent paragraphs .5", and do not skip a line between paragraphs except in cases when you want to indicate a section break.

Set off quoted text of more than four lines as a separate, double-spaced block of text indented an additional one inch from the left, with an extra hard return above and below.

Use italics to indicate text that will be italicized.

**Bibliographic references**

Bibliographical references should follow the norms of the eighth edition of the *MLA Handbook* (or the third edition of the *MLA Style Manual*). This style calls for a list of works cited, with parenthetical author/page references in the text.

**Images**

Images may be submitted as digital files (.tiff or high quality .jps) of at least 300 dpi. Please be sure that you have all obtained all necessary permissions for reproducing images.
